

The Group for Women Congratulates

**Dr. Jon Crockford on his recent certification
in Female Pelvic Medicine
and Reconstructive Surgery.**

Specializing in urinary incontinence (loss of bladder control) or pelvic organ prolapse. This problem may occur in women of all ages, and sadly many try to hide it. What they need to know is that these issues can be treated very effectively and in a non-invasive way.

Urogynecology was recently renamed female pelvic medicine and reconstructive surgery to more accurately describe the scope of diagnosis and treatment of female pelvic support disorders. The subspecialist

evaluates all the structures and systems of the female pelvis, including organs, nerves, ligaments, and muscles.
